Art Potpourri - This class has a little bit of everything! Students develop drawing and painting skills while learning about blending, line, shape, value, composition and design. Our exciting projects include painting with acrylics on old 33rpm records - silk stretched on wire hoops perfect to hang in a window, a cartoon on scratchboard and little mosaic pots perfect for spring flowers. We use quality supplies including pastels, watercolor, tempera, and acrylics. We will cover many exciting subjects including animals, flowers, people and landscapes. Join us for this fun class; we promise you'll have a great time! Students' individual creativity and imagination are always encouraged. The min/max # of students for this class is 10 and 20.

We may need a parent volunteer to assist with the class. If you are interested please indicate on the form below. If you do help with the class your child can attend for free. Sign up early!
